man who takes even the smallest interest in anthropology. The philosophical theory that men's religion is very largely determined by their mental and physical make-up was overwhelmingly demonstrated there; and any close observer looking down from the gallery must have said; "Whatever else it may be, Presbyterianism is assuredly a logical system. Admit their premises and such men as these can prove their case "

The entrance of Dr. Howard Crosby, chairman of the committee of arrangements; Dr.

The entrance of Dr. Howard Crosby, chairman of the committee of arrangements; Dr. Charles L. Thompson, retiring moderator; Dr. Joseph T. Smith, of Baltimore, former moderator; William H. Roberts, stated clerk assembly on the history of the church; Dr. Duffield, of Princeton, and other honored members of the denomination, was greeted by that quiet but joyful murmur which is the Presbyterian for "applause," and it was not till late in the afternoon, when religion as such had given way to business and business had considerably relaxed, that the assembly venturned to clap hands and laugh aboud. The occasion was the witty speech of the moderator in reply to Warner Van Norden; the latter, a lineal descendant of Everardus Bogardus, the first minister who ever preached on Manhattan Island, presented with a neat and rather formal address a gavel made from the timbers of the old Dutch church, and the moderator made a most happy impromptu reply, combining the synod of Dort, the stiffness of Dutch Calvinism and the fact that Dutch blood is still found in the "Van" of civilization in one paragraph that convulsed the assembly.

Dr. Howard Crosby's church, at the corner of Fourth avenue and Twenty-second street, is plain to the very extreme of Calvinities simplicity; but it is spacious, and its acoustic qualities are so good that every word

NOVELTIES IN JEWELS. Serpents have the call at present in quaint jewelry designs.

introduced composed of a hand grasping a bird, with its wings outspread. Cunning as a queen chain pendant is a small figure of gold, laboring under the weight of a rough block of agate.

Numbered among fanciful scarf pins is a tiny palmetto fan, with the handle of gold and the upper portion in enamel. Bracelets recently seen consisted of gold bands set with several gems alter-nating, and looking like so many nails. The link pattern, with alternating parts of platinum and gold, is a watch chain that is receiving much attention.

A fad among the ladies just now is to wear sterling silver bangle bracelets, inscribed with Shakesperean quotations.

We are often asked how we are at times able to sell certain articles for less than the cost of manufacture. We answer that for various reasons there is continually being thrown on the market, goods, which though they may be first-class are broken in sizes, sometimes the remnants of a factory's output for the season which they wish to dispose of before commencing the next season's work, and in order to make a clean sweep, sell the lot at a big loss—sometimes goods are slightly soiled, but not damaged—sometimes miscuts occur and for these and many other reasons goods are continually being thrown on the market and sold to the first bidder, and shrewd merchants who are always on the lookout for bargains and have the SPOT CASH to lay down, pick them up and offer them to their customers for a small advance upon cost in order to win the favor and good will of the trade and make their business boom. We have been been asked why we do not sell these goods for a price something near their value and thus increase the profits of our business and yet satisfy our customers. We answer, because when we started in business we laid down a rule which was, to give our trade the full advantage of every DRIVE we could get, believing that in time the consumer would come to see and appreciate it—and we have never had cause to change our mind or abandon the course, for nothing has so contributed to build up our large and growing trade or taken so strong a hold on the confidence of the people as this plan of giving them the full benefit of every bargain we can secure. When we bought the stock of A. C. Shyer & Co., at 50 cents on the dollar, you will remember we gave to our customers the same discount (an unparalled proceeding in the history of business) freely. Last winter we bought 50 dozen Bull Dog Jeans Britchesjat ½ their value and sold them accordingly at 50 and 75 cents per pair—their real value being \$1.75 and \$2 00. This Spring we got hold of 100 doz. men's pure linen 4 ply collars for almost nothing and gave them away for 5cets,

From the same Importer we cleaned up 20 doz of the very finest French Imperial Lisle Socks that we are selling at 25c., usual price 50s. These goods we can sell at twice our price and still be cheap, but it is not in accordance with our scheme of doing business. We are constantly on the lookout for bargains, and propose to give our customors the benefit of them We have an abiding faith in the appreciation of the people and believe that upon the plan laid down by us, we will soon build up a business that will surpass anything ever seen in this county, indeed it has already set in and we propose to keep it booming by selling the most goods for the least money. With "UNDERBUY and UNDERSELL" for our watchword, we propose to bring the clothing trade of this whole country to Hopkinsville. If we could buy a suit for 7½ cents we would put them to our customers for 10 cents a suit. Any merchant, aye, any child almost can buy goods at REGULAR prices, but what the people want is a merchant who knows the ins and outs and intricactes in trade, who know how to discriminate as to what to buy and what not to buy—who always has the spot cash to plank down—who is shrewd enough to know how, when and where to find bargains, who has the most bargains at all times. Besides all this, the customer wants to go where he will find the largest and best assorted stock of a andard goods, such as Strouge Bros. Tailor-Made Clothing. John B. Stetson's Hats. Earl & Wilson's Collarsand Cuffs. Wright & Richard's

Fine Shoes. Cutter & Crossett's Men's Neckwear. The Wonderful Bull Dog Britches. N. J. Schloss & Co's, Beautiful Fitting Children's Clothing.

We are the only house in Hopkinsville handling the above famous goods, and we sell them at the same prices of common slop shop goods. Come and see and price them. We don't want you to buy unless you find them cheap, but come and see us and our way of doing business. We believe you will like it.

J. Ell ANDERSON & CO.

Times Are Changed,

Complete and Overwhelming Success IN OUR SPRING BUSINESS!

Crowds of buyers attest the fact: Honest effort must receive public encouragement, and we have acquired strength in our progress. Owing to our long experience in the business we naturally have advantages over other buyers, which enable us to sell many articles of Clothing for less money than some dealers buy them for. And we desire to say right here that during our whole business experience we have never bought goods so low as our Spring Stock, and we are going to give our patrons the benefit of it. Suits we have heretofore sold for \$20 we are going to sell for \$15. Suits that are advertised as being great leaders for \$12 to \$14, we are selling for \$10. We are not selling at half price, but an examination of the quality we are giving one would think we are doing more than that. We are not only selling Clothing cheap, but Furni-hing Goods are cut to the bottom. Look at the Percal Shirt we offer for 50c, which can not be duplicated in this town for 50 per cent. more money. Suspenders worth 25c for 13c. Pure British Seamless Sox worth 25c for 12½c per pair. WE MAKE SUITS TO ORDER FOR \$13 25 and up, and and guarantee a fit or no pay. A thousand samples where we make pants to order for \$3 and guarantee a perfect fit.

The Johnstown calamity is the

of the civilized world within the last

fifty years. There have been greater c lamities, but they came as plagues, eurthquakes or volcanoes, and appeared in remote ages or in heathen countries far removed from the in terests of civilization. Nothing like this Lorror was thought possible in this country, in the light of the present scientific advancement and civilization. The later reports increase the horrors of the terrible disaster. Flood and fire came hand in hand and destroyed from 6,000 to 10,000 lives-the exact number will never be known-and then came famine and drenching rains to threaten with starvation and add to the discomforts was made offensive with the of ors of d caying human flesh and this of the unhappy survivors. The air brought on sickness and postilence and the improvised hospitals are crowded with sufferers. Insanity has found many victims and crime has been seen in its most revolting forms. Dead bodies have been robbed and mutilated to secure valuable jewelry. Horror has been been so mangled, bruised or charred heaped upon horror until the heart grows sick at the accounts.

The property of the property grows sick at the accounts.

Jopkinsville Kentuckian. WORSE AND WORSE.

Six Thousand Searchers Unearthing The Dead.

The Loss of Life Will Probably Reach 10,000.

The reports which are daily sent earthing of the dead progresses, men, women and children are found are raging over the wedged in between timber, houses, rocks, and buried in the mud. Partially burned and crushed bodies are found in the debris, and disease is doing its deadly work. Appeals for aid have been sent out to the world, which are being promptly replied to by all humane people.

As the work of the flood is revealed Guards. Little Kiver furnisses an adequate supply of water for all purposes Real estate ow and rents cheap. Fine opening for woolen mill, pork packing establishment, fruit can-nery, tanyard and many other enterprises. Climate mild and invigorating and exceedthe detailed accounts grow more sickening and the wonder at such a providence becomes more inscrutable. 245 bodies were recovered last Wed nesday, most of whom were identified. It is feared that the wife of Gen. Lew Wallace is among the lost, as she has never been heard from since she left her home on a visit a day or two before the calamity.

Johnstown, Pa., June 5-Iu the midst of this scene of death and desoation relenting Providence seems to days have elapsed since the great disaster, and the temperature still emains low and chilly in the Conenaugh Valley. When it is remembered that in the ordinary June weather of this locality from two to three days are sufficient to bring an unattended body to a degree of decay and putrefaction that wound render it almost impossible to prevent the spread of disease throughout the valley, the inestimable benefits of this cool weather are almost beyond appreciation. The emenations from the half mile debris above the bridge are but little more offensive than yesterday, and should this cool weather continue a few days longer, it is pos sible hundreds of bodies may yet be recovered from the wreck in such a state of preservation as to render identification possible.

SIX THOUSAND SEARCHERS. The work of clearing up the wreck and removing the bodies is now being conducted most systematically. him since his arrival. Mrs. Gantz Over 6,000 men are at work in the various portions of the valley, and each little gang of twenty men is directed by a foreman, who is under orders from the general headquarters. As the rubbish is gone over and the podies and scattered articles of value recovered, the debris is piled up in one high mass and the torch applied. In this way the valley is assuming a less devastated condition.

At the Johnstown station, on the east side of the river, everything was quiet, yet considerable work is being done. This is the chief commissary station, and this morning by 2 o'clock 15,000 people were fed and about 600 families furnished with provisions

CREAM OF NEWS.

Mr. Joe Hatcher is a respectable farmer, living near Trenton, Todd county, Ky. Just now he has an affliction among his stock that he is unable to understand or account for in any way, except it be poisoning. Friday four of his fine mules and one horse were taken sick, and Saturday, were hauled away dead. Yesterday three more were sick and by this morning have likely died also, as the terrible disease seems to be fatal. AGRICULTURE, HORTICULTURE

AND STATISTICS

FRANKFORT, KY., June 1, 1889.)

I have very full reports from eightythree counties, embracing the principal agricultural portion of the State.

These reports were dated from 20th
to the 28th May. In many of the
counties, at the date of these reports,
but little rain had fallen during
March, April and the early part of
May. The drought was broken from
the 12th to the 15th of May, many sections having good rains and the balance only partial showers. Ou the
29th and 30th inst. there seems to
have been a very general rain, and
as a supplement to the report of regular correspondents, I telegraphed every section of the State in order to
find out the true condition; and beg

Chittender Springs, May 18, 1889.

Last Saturday and Sunday was a busy time for the hotel. About forty business men from Evansville, Honderson and Morganileld, through an invitation from the O. V. R. R. to Celebration of Mr. E. H. Sivley's Sev enty-Fifth Birthday. Mr. Eli H. Sivley celebrated his eventy-fifth birthday last Friday, invitation from the O.V. R. R. to in-spect their line of road, shipping facilities, transfer, &c., came in two special cars to Marion, where trans-ters were in waiting to convey them over a beautiful country in a five-mile drive to the finest watering place in the State. At 3:30 p. m. Sat-May 31st. The occasion was made pleasant by a reunion of his children at the old home. The pleasure was somewhat marred by the absence of two children, Mrs. Mary M. Adams and Miss Josephine L Siviey, yet all present enjoyed themselves. Mr. Siviey was born in Rockingham county, Virginia, May 31, 1814 At the age of two years his father moved to Christian county, Ky., and

settled on the old Canton road, at the place on which he now resides. His father having died when he was yet a mere youth, the duty devolved upon him to support, his widowed mother and a large family of sisters. He had up to this time had the opportunity of attending but one three months' school, yet by close application to study at home he was enabled to obtain a fair common school education. Mr. Sivley was married in 1840 to

Miss Sarah A. Holcomb, of Logan county, Ky. There were three childen born by this marriage. Geo. S. Francis E. and Hiram H. Francis E died at the age of two years. He was again married in 1850 to

Miss Sophia E. Bostick, of Christian county, Ky. By this marriage there were born five children, Mary M. Josephine L., Martha, Catharine and Charles E. Charles E.

Mr. Sivley has never lived anywhere el-e but at the old home that his father settled. He has been a useful citizen, honored and respected by all; 2 good husband and a kind feather.

These Coaches have Porters in charge to look after the Comfort and welfare of the Emigrant, and to see that the Local Passengers are not allowed to get in the Through Coach and crowd them. No other route offers such inducements. It would tax your time and patience too much to attempt to describe the rich and beautiful homes and fertile lands of Arkanasa and Texas. Therefore, I would alvise you to go and see for fourself. Examine the country. Mingle with the people. Learn the advantages and disadvantages. Examine the advantages and islandvantages. Examine the school facilities. Boy orroin a farm, or take up Government Land, and go to work.

Teople emilgrathrene cold of Kanasa, Nebraska and the Northwestern with the country and bitter winds in exchange for our Sunny South flux well-limbered land for their treeless tracks! Tet there are unscruppions agents who give glowing discriptions of the Northwest. Do not be decoived! Visit Arkanasa and Texas and be your own judge!
